PROFESSIONAL SUMMARY

Architect & BIM Modeler with 4+ years of experience in technical design, site supervision, and 3D modeling. Managed renovation planning for 72 public schools and delivered international residential projects in the United States. Proficient in AutoCAD, SketchUp, and Revit.

WORK EXPERIENCE

Architectural Designer / Site Supervisor

CA. Diseño y Construcción — Armenia, Colombia

February 2026 – May 2026

- Directed on-site execution of architectural interior finishes and fit-outs for high-end residential projects, ensuring strict adherence to design specifications and quality standards
- Led the comprehensive redesign of residential properties, producing detailed 2D documentation, 3D BIM models, and photorealistic renderings for client approval

Architectural Designer / Site Supervisor

CA. Diseño y Construcción — Armenia, Colombia

January 2025 – June 2025

- Directed on-site execution of architectural interior finishes and fit-outs for high-end residential projects, ensuring strict adherence to design specifications and quality standards
- Led the comprehensive redesign of residential properties, producing detailed 2D documentation, 3D BIM models, and photorealistic renderings for client approval

Field Architect

Secretaría de Educación Municipal — Armenia, Colombia

May 2021 – December 2023

- Directed extensive field assessments and planimetric surveys across 72 public schools to diagnose and resolve critical infrastructure issues (roofing, flooring, and sanitation)
- Developed accurate cost estimates and managed procurement documentation for school furniture and architectural upgrades
- Supervised the final technical inspections and the official handover of newly constructed educational facilities to municipal authorities

Architectural Designer / Site Supervisor

Dracma Construcciones — Armenia, Colombia

June 2019 – June 2020

- Oversaw daily site operations and interior finish installations for residential developments
- Designed integrated electrical systems and generated complete 3D models for residential renovations
